

Three Site Recommendations for New Queens Public Library Branch

Sean Chew

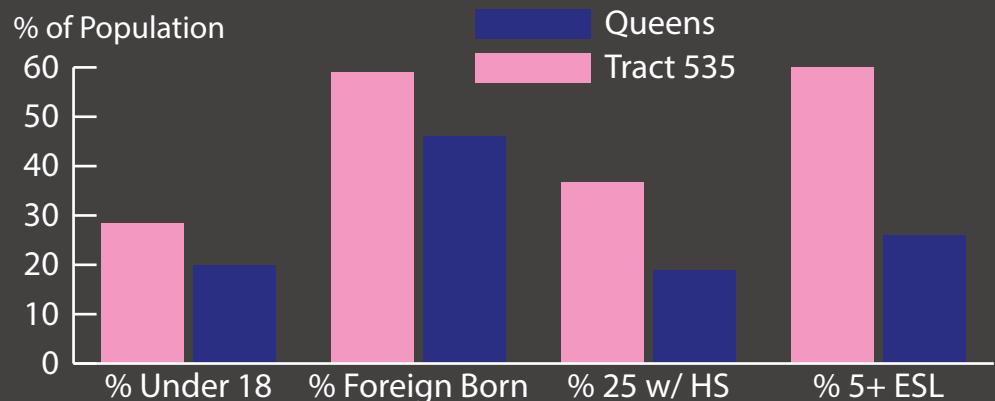

Site # 1: 72 - 32 Woodside Avenue

Highlights:

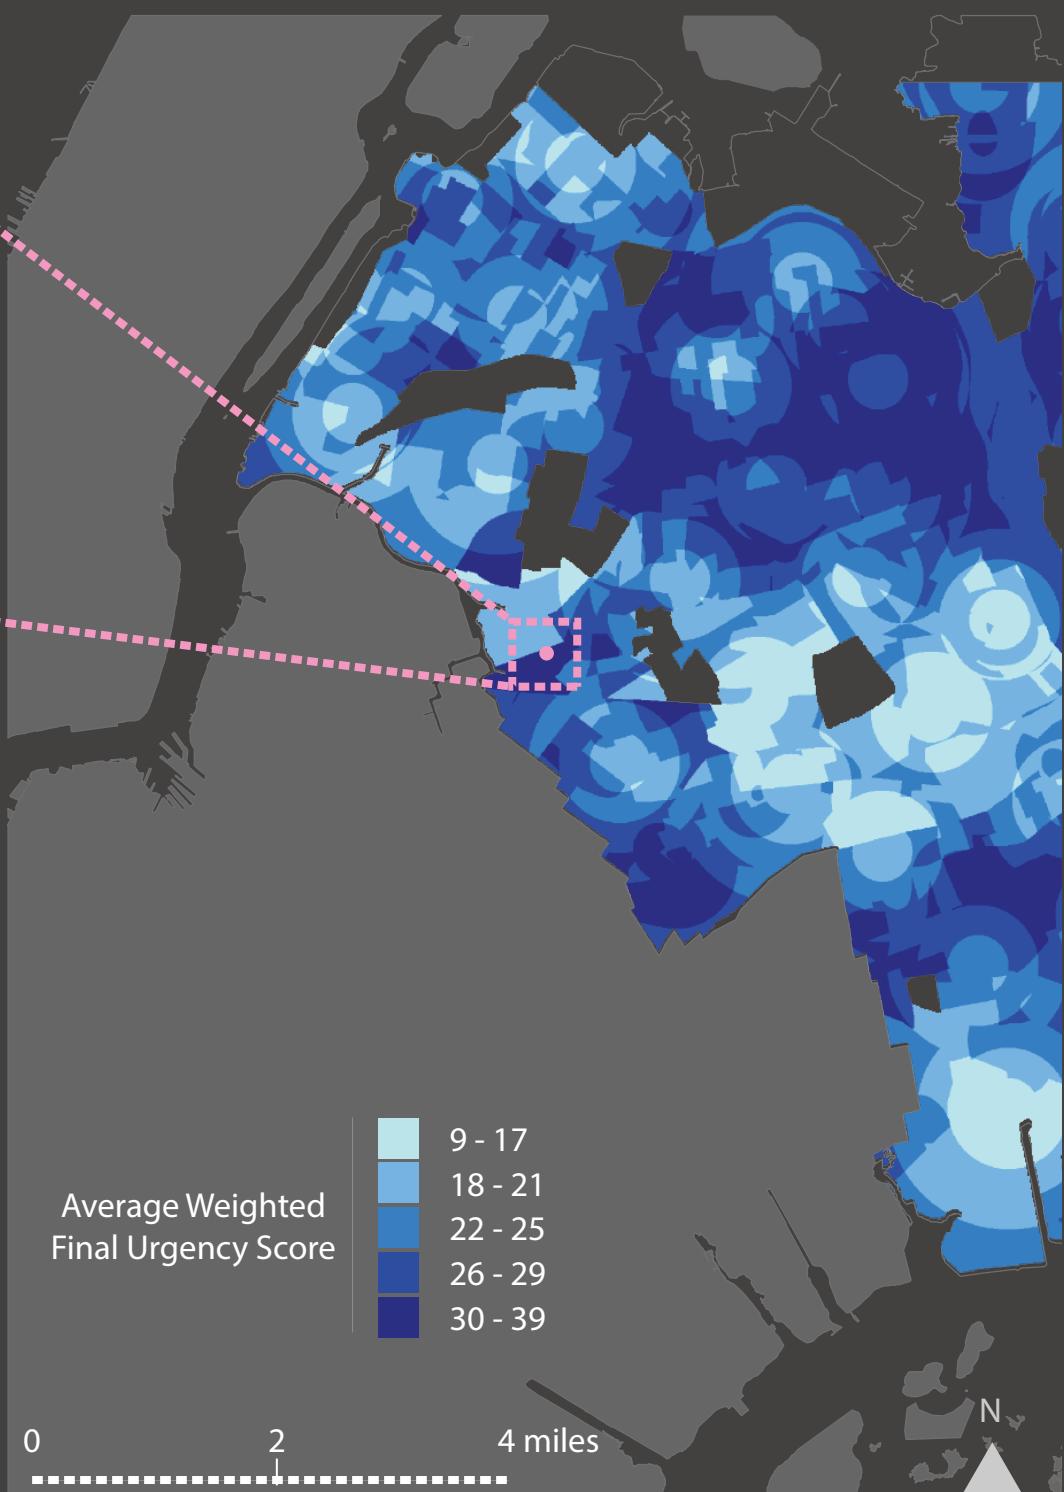

- 14,698 square feet
- Would serve 3,837 residents in tract 483
- 54% of census tract 483 above age 5 report "less than well English proficiency, well above the Queens average of 26%
- Location critical for residents without other nearby library access

Site # 2: 56 - 20 Grand Avenue

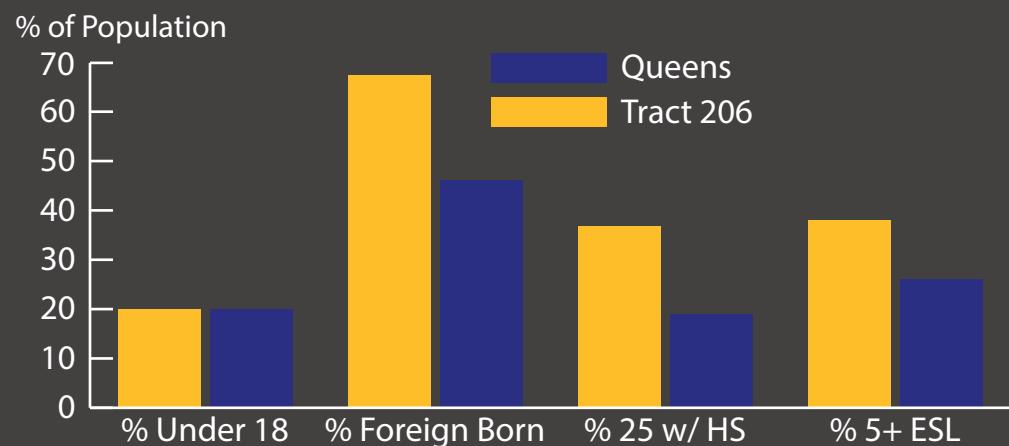

Highlights:

- 14,375 square feet
- Would serve 1,332 residents in tract 535
- 60% of census tract 535 above age 5 report "less than well English proficiency, well above the Queens average of 26%
- With higher than average population under 18 compared to Queens, library would serve as community center

Site # 3: 144 - 21 Liberty Avenue

Highlights:

- 12,158 square feet
- Would serve 1,546 residents in tract 206
- 67% of census tract 206 is non-native, well above the Queens average of 46%
- Census tract 206 contains a higher than average percentage of residents over 25 without a high school degree (17% greater)
